PROJECTS:
Boston University Enlight Social Impact Incubator   May 2024 –
Founder
- Conceive and developing Cause Connect, a platform designed to connect international students with volunteer and internship opportunities in the Boston Area, addressing challenges including visa issues and limited opportunities
- Developing a Full-Stack web interface using React.js, Prisma & PostgreSQL, incorporating user research and segmentation strategies to optimize secure data handling, and enhance the UX for both students and nonprofits portals
- Establishing partnerships with local nonprofits in Boston to provide a variety of accessible opportunities for students.

Chug – BU Student Daily Water Intake Tracker Website   February 2024 – February 2024
- Earned Best Presentation Pitch Award for Chug for project innovation and persuasive communication skills
- Co-created a live full-stack web landing page and dashboard using HTML, CSS, and Flask for backend user data processing
- Initiated a cool feature for BU students to exchange daily streaks for campus convenience points, to retain user engagement
- Enhancing user experience by spearheading integration efforts to link platform with campus-wide water bottles

Multi-Tiered Application Development Semester Project   September 2023 – December 2023
- Constructed a dynamic full data-driven technical support website app using HTML5, CSS3, PHP and MySQL databases
- Enhanced UX with PHP session methods for security, including login sessions and user validation techniques
- Collaborated with 2 teammates to brainstorm and implement ideas and feedback to application development
- Facilitated seamless real-time data update and configuration between web and MySQL for data integrity functionality

PROFESSIONAL EXPERIENCE:
Bentley University CIS Sandbox, Waltham, MA   September 2023 – December 2023
Tutor
- Co-facilitated several jumpstart sessions, reducing onboarding time by 20% and ensuring access to essential applications
- Managed the CIS Sandbox's WordPress site for posting relevant news and updated tutors page for efficient booking sessions
- Headlined a successful Open House, scoring a significant 10% increase in the school's investment in the CIS department

Emzingo |U, Madrid, Spain (Remote)   September 2023 – November 2023
Global Innovation Consultant Intern
- Led a cross functional team of three in consulting an NGO for a website redesign project aimed at enhancing donor engagement and improving organization transparency with WordPress
- Developed a personalized customer journey map for three user personas to identify distinctive appeal factors to ensure a tailored digital experience aligning with the needs of client's audience
- Executed a 7-criteria website benchmark assessment between six international NGOs to identify features and additional content to drive further audience interest in donating
- Implemented two call-to-action strategies to significantly expand donor outreach and marketing scalability for the NGO

Commonwealth Care Alliance, Boston, MA   May 2023 – August 2023
IT Governance, Risk and Compliance Intern
- Undertook thorough Risk Register analysis for company's GRC Q2 documentation and assess remediation actions
- Assisted in improving documentation efficiency and project tracking by 20% by integrating JIRA into workflow processes
- Delegated in doing a comprehensive summary of 37 newly proposed policies and standards against NIST frameworks, gap analysis, and ensuring alignment with existing policies in preparation for third-party audit
